

Practical

The test consists of two parts:

Part 1: Answer focused questions about yourself based on a general topic (3 minutes)

Part 2: Ask focused questions about the third person based on a general topic (3 minutes)

Requirements and timeframe: You must pass both parts of the test in order to pass the module test. Three (3) minutes are set aside for each part. It is very important (!) that you solve the tasks within the time frame, as it is a prerequisite for passing the test.

Preparation

From 1:

Prior to the test, you must fill out two (2) mind maps, which you may bring a printout of to the test. Each mind map must contain keywords (but not whole sentences).

Choose from the following:

Mind Map 1: My Work, My Education, My Language School or My Internship

Mind Map 2: My Home or My Leisure Activity 'X'

I would recommend you to choose My Home as your topic no. 2.

You may bring your mind maps to the test, but you may not read aloud from them.

Then, we select one topic (and one mind map) to talk about.

From 2:

The second part of the test is a mirror image of the first part. You should not answer questions, but instead ask questions. Therefore, I would recommend going through each mind map so that you know in advance what type of questions you want to ask.

Point: You need to ask focused questions. (1) You may ask questions only about the selected topic, (2) You must ask one or more questions about each subtopic, and (3) You may not ask questions to which you already know the answer.

Mind maps and case examples

The various mind maps and a case example of the second part of the test are attached in this message.
